

# LARC 212

## Designing the Future

Aut 2015 MWF 12.00-1.20

open to non-design majors

Freshmen/Sophomores preferred

VPLA 5 credits

Curious about landscape architecture, architecture and planning? Interested in discussing how our built environment could be designed to create a healthy and sustainable future? Want to learn how designers think?

Creative course structure includes in-class design activities, internet research, group discussions, and take home projects to enhance lectures from accomplished guest speakers from different fields in the private and public design sectors.
